

Key Performance Features:

- High Energy Neodymium Magnets
- Operating Speeds to 6,000 RPM
- High Torque to Size Ratio
- Encoder Ready
- 24-300 VDC Typical Bus Voltage
- CE Certificate Available

BFA34/BA34

BRUSHLESS SERVO MOTOR SERIES

VALUES AS LISTED ARE TEST CONDITIONS, ACTUAL RESULTS MAY VARY

▼ BF34 Series Options

- Optical Encoders
- Hall Sensor or Commutation Encoder
- Gearboxes and Brakes
- Application Specific Windings and Mechanical designs
- Custom Cables and Connectors
- 8-Pole Design Available
- For more options, see magmotor.com custom solutions, or call us.

▼ Typical Applications

- Semiconductor Equipment
- Medical Equipment
- Automated Assembly Machines
- Laboratory Equipment
- Pharmaceutical Equipment
- X-Y-Z Positioning Machines
